

PARAGON SERIES

ROOFING SYSTEMS

Waard Metals Paragon Series features a 1" deep flush metal panel designed for use in vertical or horizontal applications for wall, fascia, and soffit. Available options include a traditional smooth appearance, perforation, and an optional reveal of up to 3" in ½" increments. Regardless of the pattern, the 1" depth and the tongue-and-groove engagement remain the same. These panels are formed with 24-gauge steel and coated with Fluoropolymer PDVF (Kynar) paint system, providing durability and energy efficiency to any application.
